Education

Bachelor's Degree in Computer Science

CGPA: 8.47

Current Semester: 4th

Velammal Engineering College [Surapet, Chennai]

Higher Secondary Education

12th Mark: 72 Percentage

Velammal Vidhyashram [Surapet, Chennai]

Skills

- Programming Languages: C, C++, Python, Java, JavaScript, TypeScript, SQL
- Front-End: HTML, CSS, Tailwind CSS, React.js, Next.js
- Design & UI/UX: Figma, Canva, Wireframing, Prototyping
- Backend & Tools: Node.js, Firebase, REST APIs, Git & GitHub
- CS Fundamentals: Data Structures and Algorithms, OOP, DBMS, Networking
- AI & Productivity: Prompt Engineering, ChatGPT, Automation Tools

Projects

Student Registration Page

HTML, CSS, JavaScript

- Built a responsive student registration form with real-time input validation using JavaScript.
- Implemented color-coded indicators (green/red) to guide users based on input correctness.
- Ensured that inline icons remain visible even when inputs are cleared, enhancing visual consistency.

Car Lane Detection Website

Python, OpenCV, NumPy, Flask

- Designed a computer vision application to detect road lanes in both image and video formats.
- Utilized edge detection, masking, and Hough transform techniques to highlight lane boundaries.
- Built a Flask-based web interface allowing users to upload and view processed media results in real time.

2048 Game

Python, Tkinter

- Developed a fully playable 2048 puzzle game using Tkinter GUI framework.
- Implemented tile generation, merge logic, directional controls, and score tracking.
- Applied object-oriented principles to manage grid updates and game-over detection.

Tic Tac Toe Game

Python, Tkinter

- Built a classic two-player Tic Tac Toe game with a simple and intuitive graphical interface.
- Included turn-based logic, win/tie detection, and dynamic board updates.
- Focused on clean layout and real-time interaction using event-driven programming.

FAQ Page

HTML, CSS

- Created a responsive FAQ page with collapsible accordion-style sections for common questions.
- Ensured consistent layout and styling across screen sizes using media queries.
- Emphasized readability and accessibility through spacing, contrast, and typographic hierarchy.

Achievements

- 2nd Place – App Development Competition at Velammal Engineering College (Apr 2025)
 - Secured runner-up position in a college-level contest during Namma VEC - College Day celebrations.
 - Recognized for creativity, functionality, and user-friendly interface of the developed application.
- 4th Place – Python Symposium at Sai Ram Engineering College
- Finalist – Figma UI/UX Design Challenge at Amrita College
- Participated in multiple technical symposiums - Chennai Institute of Technology

Internship Experience

Frontend Developer Intern – IZEON INNOVATIVE PVT LTD

Dec 2024 – Jan 2025

- Completed a 20-day internship focused on frontend development using HTML and CSS.
- Contributed to the **VACMAR INDIA Project**, applying UI design best practices in real-world scenarios.
- Gained experience in industry workflow and frontend implementation under professional guidance.

Ongoing Projects

Online School ERP Portal (College-Assigned Freelance Project)

Feb 2025 – Present

- Collaborating with a 5-member team to build a fully functional ERP portal for schools.
- The system supports comprehensive workflows: student registration, admissions, fee tracking, exam management, timetable, homework, payroll, HR, alumni, transport, stock, and role-based access.
- Built using modular, reusable React components with dynamic state management and structured routing.
- Focused on scalable, maintainable code architecture with integrated design flow, imported UI components.
- Designed to serve multiple user roles (Admin, Principal, Staff, Students, Alumni, HR, Cashier, and more) with customized access and dashboards.

Interests

- Competitive Coding, Software Development, UI/UX Design
- Learning Japanese on Duolingo
- Problem solving and Algorithms
